Advanced Printing Technology

The FlashJet 4800 is the most advanced CD/DVD colour printer ever manufactured by R-Quest Technologies. Whether you duplicate discs for audio, music, software, video or data storage, FlashJet 4800 delivers all the performance you need for high-volume, high-quality disc printing – at a price that is extremely affordable. The FlashJet 4800 is your best CD/DVD printing solution!

Brilliant Colours

For the most remarkable print quality, speed and performance, look to the FlashJet 4800 colour CD/DVD printer. With incredible 4800dpi print resolution – the best in the world – all of your discs will have the sharpest text, graphics and photos. Colours are bright, vibrant and truly photo-quality. Your discs will look highly professional, creating a positive, lasting impression.

Very Intelligent

FlashJet 4800 is one of the most intelligent printers on the market today. Not only will it tell you approximately how many discs it will be able to print based on the image you have created, but also knows the status of the cartridges loaded to maximize your print quality! Now that's smart!
