

Parabens Cell Seizure Investigator (CSI) Stick

The portable mobile phone forensic and data gathering tool

Features:

- Get mobile phone data anywhere, anytime
- Phonebook
- Call Logs
- Camera Pictures
- Text Messages (SMS)
- Multi Media Message (MMS)

And many more.....

Paraben's CSI Stick acquires data that can only be read and analysed in Parabens Device Seizure or Device Seizure Lite. These advanced forensic analysis tools enable you to view, search, and report on data extracted from handheld devices. The CSI Stick currently supports certain **Motorola** and **Samsung** phone models with more manufacturer support coming soon.

Paraben's CSI Stick is the portable mobile phone forensic and data gathering tool.

Paraben's CSI Stick opens the world of digital forensics to anyone needing to gather forensic grade data from mobile phones. The process is simple:

- Select the colored mobile phone tip for the mobile phone model to be acquired.
- Plug the portable power adapter into the USB end of the CSI Stick.
- Plug the CSI Stick into the mobile phone.
- Select the data you wish to extract using the slider switch:
 - - A logical copy gets all available active data (including text and multi-media files).
 - - The text filter copies all SMS and text messages, phonebooks, and call logs.
 - - The multi-media filter copies all available pictures and movies.
 - - A physical copy gets all memory on the device (Please Note: This process can take many hours to complete).
- Push the acquire button and wait for the completion indicator.
- Plug the USB end of the CSI Stick into a PC to be read by Parabens Device Seizure or Device Seizure Lite.

CSI Stick Includes:

- One CSI Stick Base Unit
- Two Motorola Tips
- One Samsung Tip
- One Remote Charger + Tip
- Carrying Case

Forensic Software Products

AccessData Forensic Toolkit™ 2.0

The Ideal Toolkit for the Forensics Specialist

Includes Forensic Toolkit, Password Recovery Toolkit, Registry Viewer and 50 Client DNA License. Includes the Oracle database.

AccessData Password Recovery Toolkit™ (PRTK)

Recover Passwords Quickly & Easily

The Password Recovery Toolkit gives you the ability to recover passwords from well-known applications and gain access to encrypted files and drives, including the encrypted file system (EFS) from Microsoft.

AccessData Distributed Network Attack

Putting Idle Time To Work

In the past, recoveries have been limited to the processing power of one machine. DNA uses the power of machines across the network or across the world to decrypt passwords.

Infinadyne CD/DVD Inspector software

Professional software for intensive analysis and extraction of data from CD-R, CD-RW and DVD media. Tailored for professionals in data recovery, forensics, and law enforcement.

Spector

Automatically Record Everything Someone Does on Their PC

Spector AUTOMATICALLY takes hundreds of screen snapshots every hour, very much like a surveillance camera. With Spector, you will be able to see EVERY instant message, e-mail, web-site visited and keystroke typed.

WetStone - Gargoyle Investigator™

Malware Detection Software

Forensic Pro Edition includes WetStones most advanced malware detection software package and malware datasets for rapid, in-depth forensic investigations. It is designed for forensic analysts, forensic laboratories, law enforcement personnel, corporate investigation teams, and advanced private investigators

WetStone - Stego Suite™

Recover Hidden Information

Provides investigators with advanced steganography investigation capabilities. This suite includes four software tools; Stego Hunter, StegoWatch, StegoAnalyst and StegoBreak, allowing investigators to detect, analyse and in certain circumstances recover hidden information.

Other Products:-

- Forensic Tools
- Hard Disk Duplicators
- Floppy Disk Copiers
- CD/DVD Duplicators
- CD/DVD Printers

Media Duplication Services For:-

- Floppy Disk
- CD
- DVD
- Tape
- Blank Media Supply
- Standard or Customised Packaging
- Fulfilment Service
