

# TCA-9200

## Set-up And Walk Away Operation.

### Features:-

- Standalone
- 220 Disk Capacity
- Internal Hard Drive

- Easy Operation
- Firmware Upgradeable
- Network Option
- Batch Mode

The TCA-9200 is the latest standalone duplicator in our range, offering high specification at a competitive price. The input and output hoppers hold 220 disks, for unattended operation.

TCA-9200 is easy to use, making it possible to start duplication runs by pressing just one button. All functions are managed by a smart and clear controller with a back-lit LCD display and a simple to use 6 button keypad. TCA-9200 is upgradeable in the future should your requirements change.

TCA-9200 is ideal for a large number of applications where information is distributed on CD-R or DVD-R, both internally and externally. Perfect for duplication professionals, software developers, audio professionals, corporate users and many more.

The intelligent controller automatically identifies the format of the master and supports all the options listed overleaf.

Quality control is standard with the option to verify and compare both master and copied disks.
