

TCP-7550

Complete DVD+/-R Publishing System

Features:-

- Easy Operation
- Standalone Or Networked System
- Auto Format Detection
- Internal Hard Drive

- User Friendly Interface With LCD Display
- Large 550 Disk Capacity
- Reliable Robotics
- High Speed Up To 48X

The TCP-7550 is the ideal solution for really high volume applications, with it's five high speed writers and a massive 550 disk hopper capacity.

Based on established controller technology the TCP-7550 will function as a standalone system which requires no host PC. For added flexibility a network option is also available to turn the system into a shared resource accessible by other users on your network.

High quality components are used within the robotic assembly to ensure long term reliable operation. This combined with the proprietary TrueCopy technology means this publishing system will produce the finest quality copies, whatever the format.

Printing has never been easier with the advanced TrueCopy controller. Create your print image using the program of your choice and either save it to disk to load with your master or send it via the network direct to the publishing systems hard drive.
