

Tableau T35es eSATA Forensic Bridge

Meeting the need for eSATA Host Connectivity

Features:

- The Tableau T35es eSATA Forensic Bridge supports four different host connection options for SATA and IDE device acquisitions:
 - One eSATA
 - Two FireWire800
 - One FireWire400
 - One USB 2.0/1.1
- The T35es: Superb write-blocking performance in a compact, rugged, and easy-to-use package.

With four different host interface options, the Tableau T35es eSATA Forensic Bridge establishes a new standard in write-blocker performance and host interface connectivity. No other write-blocker can match the combination of product quality, host connection flexibility, imaging performance, and overall value available in the T35es today.

Convenient SATA & IDE Drive Acquisitions

The T35es eSATA Forensic Bridge natively supports write-blocked acquisition of SATA and IDE drives without the clutter of special cables or adapters. As with all Tableau forensic bridges, the T35es recognises and defeats HPA (Host Protected Area) or DCO (Device Configuration Overlay) regions. Plug in, power up, and start acquiring evidence.

Support For All Leading Software Imaging Tools

The T35es eSATA Forensic Bridge is compatible with all leading software imaging applications. As an added value, the Tableau Disk Monitor (TDM) application is available as a free download for all Tableau customers. TDM automates the collection of device and subject drive information when using Tableau forensic bridges.

Protect Your Investment With TABLEAU'S Firmware Update Utility

When you purchase a Tableau forensic bridge, you can rely on the firmware updates to deliver high-quality, high-performance, and robust device capability for many years to come. The Tableau Firmware Update (TFU) utility offers users a fast, convenient method to maintain the T35es and all of our forensic bridge products.

Technical Data:-

- **Product:** eSATA Forensic Bridge Tableau Model T35es/T35es-RW
- **Connectors: Host Side**
 - **eSATA:** One eSATA Signal Connector
 - **FireWire:** Two 9-pin FireWire800 (1394B)
One 6-pin FireWire400 (1394A)
 - **USB:** One USB Mini-B (5 pin, USB2.0 high/full/low speed)
 - **DC Input:** DC In: 5-pin Mini-DIN connector for use with Tableau T2 power supply
- **Connectors: Device Side**
 - **SATA:** SATA Signal Connector
 - **IDE:** IDE Signal Connector
 - **DC Output:** 4-pin male "drive power" connector (power to SATA or IDE hard disk)
- **Switches:**
 - **DC Power Switch:** Toggles DC IN Power ON/OFF
 - **DIP Switch:** 4-position DIP switch selects field-configurable options (DIP Switches can be accessed by removing a knock-out panel on the side of the T35es case)
- **Other Features:**
 - **Status LEDs:** 7 LEDs: DC IN good, Power ON, IDE drive detected, SATA drive detected, Host connected, Write-block enabled, Drive activity.
 - **Factory Configuration:** Black-case units are configured as read-only (model T35es) Yellow-case units are configured as read-write (model T35es-RW)
- **Compatibility:**
 - **SATA Devices:** SATA 1 or SATA 2 hard disk devices
 - **IDE Devices:** Parallel ATA hard disk devices with LBA (Logical Block Addressing) support
 - **Host Interface:** eSATA, FireWire800/400, and USB 2.0
 - **Host O/S:** Windows XP/2000/newer, Macintosh OS X, most Linux distributions (note: Linux distributions have varying levels and quality of support for FireWire 1394 A/B and USB2.0)
- **Physical / Environmental:**
 - **Power:** 5-6 watts typical operating (not including hard disk)
 - **Supply voltage (DC IN):** +5VDC @ 2A, +12VDC @ 2A (include budget for hard disk)
 - **Output voltage (DC OUT):** +5VDC @ 1A, +12VDC @ 1A
 - **Dimensions:** 5.75 in. (L) x 3.25 in. (W) x 1.125 in. (H) Weight 6.1oz (172g)
 - **Operating temperature range:** 0 to 55 degrees C (no airflow)
 - **Storage temperature range:** 40 to 70 degrees C
- **Relative Humidity:**
 - Up to 90% (non-condensing)
