

# Flash Duplicators

**Available in 3, 7 or  
11 configurations**

## USB FLASH DUPLICATOR FEATURES:

- Available in 3, 7, & 11 recording slots
- Standalone—No PC required
- Any size USB flash drive acceptable
- USB 1.0 and 2.0 supported
- Record Speeds: 10 MB/sec
- Erase function removes data from flash drives
- One-touch operation

Copy USB Thumb Drives in a flash with the CopyWriter Flash Duplicator. Available in 3, 7, or 11 slot configurations, users can make up to 11 copies at a time in a single system. Making copies with the CopyWriter Flash Duplicator is easy; simply insert your master thumb drive and up to 11 blank devices, then press the OK button. Capacities are not an issue; even the newer 32GB SDHC cards are supported!

Asynchronous copying technology and a large memory cache allows for every slot operate independently. Copy jobs up to 256MB in size and permit target devices to be unloaded and loaded on the fly: as soon as a slot signals ready, you can remove the finished, copied media and insert another blank device.

These copiers operate without the help of a PC, they're easy for anyone to use. Bit-level comparison ensures a successful copy every time. All current formats (Fat 16, Fat 32) are supported, and the unit is backed by one year warranty. CopyWriter Flash Duplicator can also be used to erase content from flash devices, leaving you with a clean, unformatted device.
